THE RETURN OF LIGHTER EVENINGS

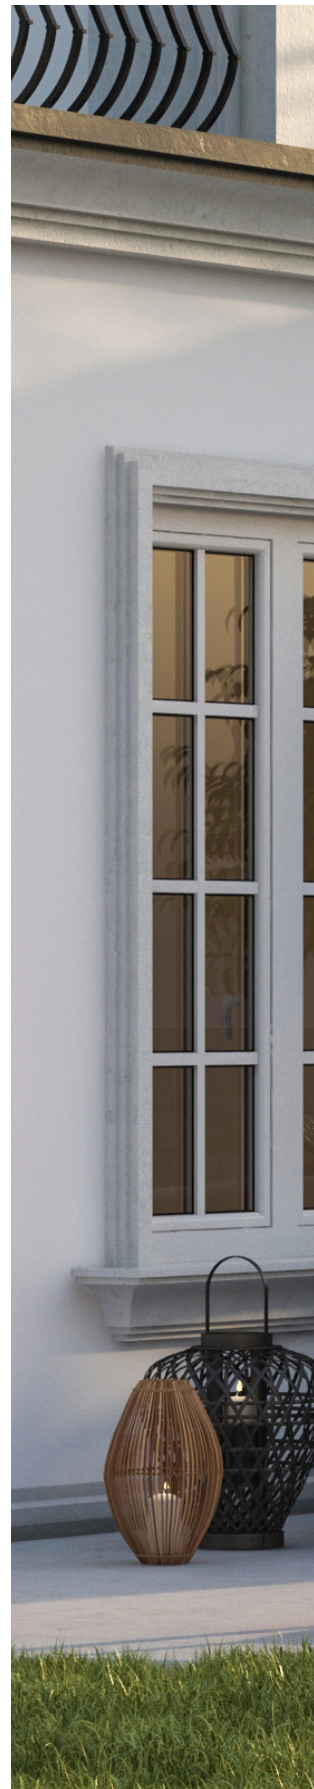

There's nothing like a glass of cold white wine in the setting sun to mark the coming of spring and summer. Extend the mild evenings with candles, open fires, beautiful flowers, delicious barbecue and decorative racks for wood storage. We have put together an outdoor range that guarantees many a happy hour in your very own outdoor oasis.

The collection consists of a fire pit, an outdoor wood-burning stove, two types of BBQ grill tables as well as wood storage racks, raised beds and plant boxes in various sizes.

The collection is made of corten steel which develops a beautiful and completely unique rust-like appearance when exposed to wind and weather. The two BBQ grill tables are also available in black enamelled steel.

OPEN FIRE

The perfect place to get warm when the outside temperature drops is in front of an outdoor wood-burning stove or by a firepit. Sit back and enjoy the warmth and sight of the enchanting flames of your **CUBIS** outdoor wood-burning stove. Wheels can be purchased, allowing you to easily move it to the place you prefer.

Enjoy the dancing flames while making popcorn or toasting marshmallows around the **FUEGO** firepit. Relive the true taste of a campfire with S'mores. They are so easy to make and it just adds something very special to the mood.

Combine the **MULTIFLEX** wood storage unit to suit your needs. For example, choose a low model and place a thick wooden board on top, giving you the perfect place to store your food and drinks.

A room need not have any walls. Add colour to your outdoor life using nature as your setting! Plant flowers in all the colours of the rainbow. Plant the flowers in **MULTIFLEX** raised beds and plant boxes — it is practical and beautiful to look at. For a more flexible solution, opt for plant boxes on wheels.
