

# Willow Elegance Double Sided Stove

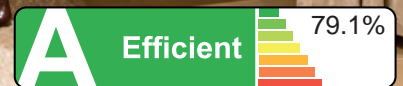

**Traditionally Styled**  
Wood Burning & Multi-fuel Double Sided Stove

# Willow Elegance Double Sided Stove

Leaf  
Stoves

The Willow Elegance Double Sided stove has two wide, impressive door panels, giving you a full view of the relaxing and warming flames from both sides of the stove

The Elegance stove is the ideal choice for any home where you have two rooms back to back on the same chimney so you can heat both rooms with one stove, it has an impressive heat output of up to 12kW's, with dual controls on both sides of the stove, so the stove can be fully controlled from either side. This stove features a unique Heat Sink which is fitted under the top lid helping to convert and distribute the maximum heat from the stove into both rooms

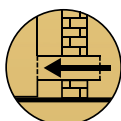

3 Way Air System

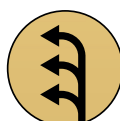

This Double Sided Stove is fitted with Leaf's 3-Way Air Management System for maximum efficiency protecting air quality. This is fully controlled by the 2 x Pull Out/Push In Air Controllers which are positioned under both doors, so allowing controllability from both rooms. These control the Primary Air, The Secondary Air Wash which helps to keep both door glasses clean and Tertiary Air to both sides of the Stove which ensures that all fuel is burnt in the most efficient and Eco Cleanburn manner therefore minimising emissions and protecting the environment.

Radiant & Convectional

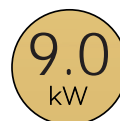

Optional Direct Air Feed Kit

3 Way Air System

Top Flue Exit

Nominal Heat Output

The four elements of nature:  
***Fire, Water, Earth & Air***

From the beginning of time we have always been attracted to a beautiful warming flame and glowing embers.

*All of our stoves are fully produced from start to finish in the UK, more than just a British Company, we Design with Passion and are Proud to fully manufacture in the UK.*

*Leaf Stoves has a policy of continuous product improvement and development. Leaf Stoves reserves the right to change specifications and make modifications to the appliance described and illustrated at any time.*
